

To whom it may concern,

I am writing on behalf of the AIR1 radio station. We are distressed to hear that it could be forced off the air. I believe that it provides myself and my family with a positive alternative to what is being played on other stations. We've all benefited greatly by its encouraging music and message. I believe it would be a great detriment to our community if AIR1 were no longer on the air. There are testimonials of people in crisis who have listened to AIR1 and it changed their lives, how can you take that away from people who are struggling? My family and I moved to Medford, Oregon but only after we checked to make sure that AIR1 came in loud and clear in that area. Before that we listened to it in Lake Elsinore, CA. We are supporters of AIR1 and truly need it in our lives. How can you take a radio station away that is completely listener supported? It is clearly loved by this community and I believe communities all over the country. The service of AIR1 is obviously in the public's best interest and should stay right where it is.

Thank You,

Pamela Dorr
